

Super Water Home and Garden Filter- NO MORE SCALE OR CHLORINE

- Highly effective - Testing has shown that the Home and Garden filter can prevent up to 99% of lime scale and even reduces lime scale that has already been deposited on heating elements and in pipes.
- Suitable for even very hard water supplies.
- Long life and great value - the media should continue to work optimally for up to 2 years, making the cost of ownership very low.
- Versatile – The Home and Garden filter is available in 3 sizes and is suitable for residential and commercial applications and can be used with all types of electrical appliances from boilers and dishwashers to ice makers and washing machines.
- Environmentally friendly: - No Salt. Unlike traditional softeners, The Home and Garden filter does not require regeneration with salt, which can save users hundreds of pounds per year, not to mention the hassle of ordering, carrying, and adding heavy bags of salt to their systems on a regular basis.

No wasted water. Unlike traditional softeners, the Home and Garden filter does not require backwashing, which can save users thousands of litres of water per year. As well as the cost saving for those on metered supplies, this water saving combined with the absence of salinated water being flushed into the sewerage system has huge environmental benefits.

No power. Unlike traditional softeners or electronic water conditioners, the Home and Garden filter does not require power.

Reduced soap/detergent use - as with soft or softened water, water treated with the Home and Garden filter requires the use of less soap than hard water.

Better for you - Unlike traditional softeners, the Home and Garden filter does not add sodium in order to replace the lime scale in the water. It is not healthy for humans to consume too much salt and the absence of sodium means that the Home and Garden filter is even suitable for those on low sodium diets. In addition, minerals which are beneficial to health are added to the water. In fact, the Home and Garden filter is the first combined no salt water softener and drinking water filter. It is proven to help people with chlorine sensitivity and skin conditions whilst producing great tasting, healthy water.
